RefMagic is a tool to help you create references according to the Harvard standards. It has the ability to automatically create many reference types (like journal, book, website, blog, presentation, etc.) that you can add to your manuscript and easily copy them to other manuscripts. The references you create with RefMagic are Harvard style, so you can use them with your references manager. RefMagic is a reference manager that you can create many references (journal, book, website, blog, presentation, podcast, etc.) and you can easily copy them to other manuscript.

- Browse the references (publishing rules) created by others and create a customized one.
- Add references (journal, book, website, blog, podcast, presentation, etc.)
- Search references
- Search author, title and journal.
- You can also create a custom search.
- List references
- Add reference to a list or directly to the manuscript. You can set the link of a reference to a PDF file or a webpage or an URL.
- Preview and edit references
- Edit references
- Show/hide references
- Show or hide all references
- Edit the layout of your manuscript
- Create a reference for a book (Title, Author, Year, Publisher)
- Create a reference for a website (Title, Author, Year, URL, and web page)
- Create a reference for a journal (Author, Title, Year, Volume, Issue, Page)
- Create a reference for a presentation (Author, Title, Year, Date, File)
- Create a reference for a podcast (Title, Author, Year, Show)
- Create a reference for a blog (Author, Title, Year, URL, and web page)
- Create a custom reference (Title, Author, Year, Publisher)

What's New Version 3.1.4: Minor update for RefMagic 3.1.4 fixes a bug: if you are on the list of published references when saving a new document, you can't check the references (check the box "Is reference list checked") to create a new reference. Minor update for RefMagic 3.1.4 fixes a bug: if you are on the list of published references when saving a new document, you can't check the references (check the box "Is reference list checked") to create a new reference.

- Bug fix (please report if you are still experiencing this bug with RefMagic 3.1.4)
